

# The Versatile One !™

**BlueSky Medical - A Leader in Suction Technology**

## **Wound Drainage and More**

- Designed to assist with a variety of wound drainage needs, 30-45 minute Battery life
- Locking Suction control, no accidental changes in vacuum level
- Disposable Pump Mechanism for longevity and hygiene
- Precise vacuum accuracy, analog vacuum gauge plus membrane regulator
- Fits most common suction canisters
- Intermittent Suction Modes (programmable)
  - 8 seconds on/4 seconds off
  - 16 seconds on/8 seconds off
  - 32 seconds on/16 seconds off
- TWO levels of Overflow shutoff protection.

The Versatile 1™ is the pump for your hospital, institution, or home healthcare agency. It is an economical, robust, and reliable suction pump that can provide wound drainage in many situations. But more than that, Versatile 1™ can be used for virtually any general suction need. From intermittent gastric suction to endoscopic use the Versatile 1 is the pump for you.

Versatile 1™ is the only pump that offers a disposable suction mechanism for economical replacement or the epidemiological needs for isolation. With the Versatile 1™, the entire pump mechanism can be removed and discarded and a fresh uncontaminated suction mechanism is introduced at a very low cost. Two levels of overflow protection plus precise vacuum levels for safety.

# Versatile 1

## BlueSky Medical - A Leader in Suction Technology

### Ordering Information

**Item #** 100.010 Versatile 1™ 120V 60Hz USA plug  
130.030 Versatile 1™ 220V 50Hz Euro Plug

#### Pump Includes:

- 5 disposable overflow/bacteria filters
- 1 liter reautoclavable polysulfone jar
- 1 250ml reautoclavable polysulfone jar
- 2 lids for polysulfone bottles
- 2 mechanical overflow devices
- 1 Abbott type canister holder
- 1 Allegiance type canisters holder

#### Pump Dimensions/Weight

Height 15" X Depth 11.2" X Width 6.7"/11.2lbs

#### Battery

30-45 minutes operation, 300-500 charging cycles.  
Audible alarm at low battery level

**Warranty:** Lifetime limited warranty for ANY defective parts. 2 year warranty on drive train. 1 year warranty other parts. See detailed warranty.

### Technical Specifications

#### Pump Mechanism:

Piston/cylinder combination in a quad configuration. This quad technology allows for redundant pistons insuring high degree of reliability. The four separate pistons/cylinders generate suction that is transferred to the main suction manifold via flexible film hinges. Extremely high quality plastic parts operate at low RPM's resulting in extreme quiet operation. The quad system is easily replaced. To replace merely remove the back screws. Twist out old mechanism. Twist in new mechanism and the suction mechanism is replaced! Flow 18L/M, 380mm Hg maximum suction

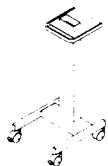

#### Membrane Vacuum Regulator

The membrane regulator is among the most precise and accurate. Unlike most vacuum regulator that work by allowing air into the system. The membrane regulator senses the atmospheric and desired level and adjust actuators accordingly. Thus a faster, more precise, and quieter suction is obtained.

## Accessory Products

BlueSky has a number of accessory products to assist you in your desired application. See our detailed Price list or website for available options.

#### Trolley

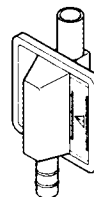

The Mobil Trolley is the perfect accessory for the Versatile 1. Allows for easy mobility!

#### Fingertip Tubing

Our Tubing allows for easy control of suction plus it fits most drainage and suction catheters  
Item #500.2001

#### Bacteria/Overflow Filter

Provides protection to the pump against overflow. Also is a bacteria filter.  
Item #500.3070
